ABOUT THE SEMINAR

Green Chemistry is the use of techniques and methodologies that reduce or eliminate the generation of feedstock, products, byproducts, solvents, reagents etc. that are hazardous to human health or environment. It includes the processes of High Atom Utilization, Zero Emission and Low- Waste Generation. Scientists and technocrats have now realized the need for genuine and concerned efforts to correct pollution problems by the more extensive use of 'Green Chemistry Concept'. The Green Chemistry Concept aims to make humanitarian approach to chemicals especially environmentally benign synthetic organic chemicals.

In the seminar the delegates will certainly get an opportunity to understand the kind of work going on the field of green chemistry for remediation of environment.

ABOUT THE COLLEGE

M.L.S.M. College, Darbhanga, Bihar is a constituent unit of L. N.Mithila University, Darbhanga. The college is situated on the north of Harahi tank on Railway Station Road. This Institution provides teaching of Intermediate as well as Degree (Hons.) in all the four faculties of Science, Commerce, Social Science and Humanities. It is imparting quality education since its establishment in 1979 by taking advantage of a vast faculty of learned teachers. This Institution provides all necessary facilities to the students for all round development of their personality. It has a self contained campus that offers an integrated living and learning experience to rural as well as urban community. Life at M.L.S.M. College is enjoyable, secure and comfortable. The tranquil campus provides a remedial and entry level coaching for different job oriented competitive examinations. It also offers job oriented Industrial Fish and Fisheries course at B. ASSOCIATION OF CHEMISTRY TEACHERS(ACT)

The Association of Chemistry Teachers(ACT) was launched in 2000 under the name Indian Association of Chemistry Teachers(IACT) to serve as an apex national body of Chemistry educators to promote excellence in Chemistry Education. The association brings together on a common platform higher secondary school teachers, college and university professors, scientists and researchers from industry and national laboratories for organizing subject related activities. It has its headquarters at Homi Bhabha Centre For Science Education, TIFR, Mumbai.

OBJECTIVES OF ACT ARE:

1. To advance Chemistry education by means of development and innovation in teaching and evaluation methodologies.
2. To organize workshops and conference including an Annual National Convention of Chemistry Teachers (NCCT) in different cities and regions.
3. To forge a synergistic relationship between academia, Industry and research centers for mutual benefit.
4. To explore and nurture talent in Chemistry with special reference to the Indian National and International Chemistry Olympiads.
5. To collaborate with International Science Teachers' organizations fo exchange of ideas and organization of joint programs.
